

## AUWELD 303-10M-OX Extra Heavy Duty O<sup>2</sup> Regulator

### Description

These regulators are designed to provide you with excellent performance, and are robust, durable and safe. The tested regulator is protected by a fully encapsulated filter. The zinc die-cast valve cover is protected by double-layer powder coating to ensure corrosion resistance in corrosive environments. The single-stage regulator has designed for heavy duty gas welding, cutting, and heating application.

### Specification

Model	303-10M-OX
Gas	He/Ar/N <sub>2</sub> /O <sub>2</sub>
Pressure Inlet Gauge	0-1000 PSI
Max Delivery Pressure	250 PSI
Working Pressure	0 - 10 Bar
Inlet Connection	CGA 580

### Features

- **Product Material** : Body and housing cap are machined from class “A” brass bar stock, sintered bronze inlet filter, chrome plated housing cap

- **Characteristics** : 3-1/4" diaphragm, max. delivery volume 180m<sup>3</sup>/hour, single stage construction, stem type seat assembly for more reliable seating , manifold models available, for extra heavy duty
- **Applications** : It can apply to in industrial and laboratory applications, non-corrosive gases, hydrocarbon service.
