

AUWELD HMG Argon Regulator

Description

These regulators are designed to provide you with excellent performance, and are robust, durable and safe. The tested regulator is protected by a fully encapsulated filter. The zinc die-cast valve cover is protected by double-layer powder coating to ensure corrosion resistance in corrosive environments. The piston type regulator designed for MIG & TIG applications and provide accurate regulation of gas flow and provide reliable performance in commercial, industrial and laboratory application.

Specification

Model	HMG Argon Regulator
Gas	Argon
Outlet Flowmeter	0 – 25 Litre / Min
Pressure Inlet Gauge	0 – 3500 PSI
Pressure Outlet Pressure	3.5 Bar
Inlet Connection	CGA 580

Features

- **Product Material** : Body and housing cap are machined from class “A” brass bar stock, sintered bronze inlet filter
- **Characteristics** : Piston type construction, compact design, combination of regulator and flow meter as one unit

- **Applications** : It can apply to MIG & TIG applications.
