

AUWELD LPG Regulator Complete With Gauge

Description

These regulators are designed to provide you with excellent performance, and are robust, durable and safe. The tested regulator is protected by a fully encapsulated filter. The zinc die-cast valve cover is protected by double-layer powder coating to ensure corrosion resistance in corrosive environments.

Specification

LPG Regulator Complete With Gauge	
Model	
Gas	LPG / Propane
Pressure Inlet Gauge	0-350 PSI
Max. Delivery Pressure	0 – 45 PSI
Working Pressure	0 – 25 PSI
Inlet Connection	LPG

Features

- **Product Material** : Body and housing cap are machined from class “A” brass bar stock, sintered bronze inlet filter

- **Characteristics** : Single stage construction, safety relief valve for safe operation, compact and economic design, two pressure gauge for easy reading
- **Applications** : It can apply to commercial and industrial application
