

Diagonal Pliers with DynaGrip®

Description

- The cutting jaws are at an angle to handles, allowing the user to cut close to a surface with the hand clear of obstructions. Also used for wire stripping.
- Forged carbon steel jaws fully heat treated for optimum performance and durability
- Induction hardened cutting edges for great reliability in cutting
- Bi-material soft grip handle provides excellent comfort
- Ergonomically designed DYNAGRIP handle with finger guards for better efficiency and handling
- For most home DIY work
