

## Linesman Pliers with DynaGrip®

### Description

The **STANLEY®** Linesman's Pliers are comfortable and durable. Its bi-material handle helps you grip the tool more comfortably. With a fixed joint design for grasping, bending, and cutting, induction hardened jaws that help the tool stay sharp, and a body made of drop-forged steel, this tool is indispensable for your toolbox, work bench, or tool belt.

- Gripping combined with cutting, known as side cutting pliers
- Forged carbon steel jaws fully heat treated for optimum performance and durability
- Induction hardened cutting edges for great reliability in cutting
- Bi-material soft grip handle provides excellent comfort
- Ergonomically designed DYNAGRIP handle with finger guards for better efficiency and handling
- Used for cutting as well as bending and twisting wire and as fish tape puller
- Used for holding and cutting materials such as small wires or power cords
- Mainly used by electricians
